- Zwinderman, A.H. *see* Kamp, G.A.

## Subject Index to Volume 56

### Acromegaly

- cardiac dysfunction and 595
- octreotide doses and gender 73
- pegvisomant, therapeutic implications (Commentary) 423
- pegvisomant therapy and lipid changes 303
- physical function and fatigue 351
- therapeutic options (Commentary) 423
- TRH test and recurrence risk 313
- untreated, and somatostatin analogues 65

### ACTH

- tests, and secondary adrenal insufficiency 533

### Addison's disease

- DQ-LTR13 and susceptibility 773
- prevalence and incidence 787
- subjective health status 581 (Commentary) 573

### Adenectomy, transphenoidal selective (TSA)

- surgical outcome for Cushing's disease 541

### Adiposity

- metabolic effects of GH and growth promotion 799

### Adrenal incidentalomas

- 21-hydroxylase deficiency and 811

### Adrenal insufficiency, secondary

- low-dose ACTH test and HPA axis 533

### Adrenal metastases

- clinical and pathological impact 95

### Alendronate

- combination therapy for osteoporosis (Review) 565

### Amiodarone-induced thyrotoxicosis

- role of colour-flow Doppler sonography 33

### Anabolic agents

- combination therapy for osteoporosis (Review) 565

### Anaplastic pseudothyroiditis (Case report) 553

### Androgens

- deprivation therapy and prostate cancer 779
- substitution, interpersonal transfer of topical preparation 637

### Anorexia nervosa

- somatostatinergic tone in 391

### Antiresorptive agents

- combination therapy for osteoporosis (Review) 565

### Arterial stiffness

- in adult GHD 493

### Arterial stimulation

- localization of insulinomas (Commentary) 149

### Atrial fibrillation

- associated with hyperthyroidism 39

### Atrial natriuretic peptide (ANP)

- response to subarachnoid haemorrhage 629

### Autoimmune thyroid disease

- susceptibility loci 45

### Bioassay

- serum hGH somatogenic activity 475

### Bisphosphonates

- combination therapy for osteoporosis (Review) 565

### Blood pressure

- circadian rhythms and GH replacement in GHD 431

### Body composition

- androgen deprivation therapy and prostate cancer 779
- effects of GH and growth promotion in children 799
- elderly people with GHD 175

### Bone

- BMD and phyto-oestrogens 321
- BMD in postmenopausal women 703
- BMD, spinal irradiation and GH therapy in GHD 169
- combination therapy for osteoporosis (Review) 565
- fracture risk in pituitary disease 159
- mass and turnover in Cushing's disease 153
- metabolism in men, and oestrogen (Commentary) 291
- metastases, from differentiated thyroid carcinoma 377

### Brain natriuretic peptide (BNP)

- response to subarachnoid haemorrhage 629

### Breast cancer

- clinical use of GnRH analogues (Review) 677

### Breast-feeding

- thyroid hormone levels 621

### Cachexia, cancer

- role of IGF system 723

### CAH

- adrenal incidentalomas and 21-hydroxylase deficiency 811
- complete virilization in 231

### Calcitonin

- combination therapy for osteoporosis (Review) 565

### Calcium channel mutations and polymorphisms 367

### Cancer see Cachexia, Metastases, specific malignancies

### Capillaries

- permeability and density in GHD 519

### Cardiac dysfunction

- in acromegaly 595

### Cardiac hormones

- response to subarachnoid haemorrhage 629

### Cardiovascular disease

- vasoregulation in GHD 759

- Cell lines, thyroid cancer 341
- Chemotherapy
  - ovarian protection and GnRH analogues (Review) 677
- Children
  - bone mass and turnover in Cushing's disease 153
  - CRH test in preterm infants 207
  - CTLA-4 gene and Graves' disease 649
  - height prognosis, central precocious puberty 297 (Commentary) 295
  - idiopathic short stature and IGF-I responsiveness 439
  - inhibin B in boys 215
  - inhibins A and B in girls 223
  - insulin, IGF axis and growth in cystic fibrosis 383
  - metabolic effects of GH and growth promotion 799
  - preterm infants, and thyroid hormones in milk 621
  - spinal irradiation and BMD in GHD 169
- Chinese population
  - autoimmune thyroid disease susceptibility loci 45
- Cognitive function
  - in hypopituitary women 183
- Contraception see Oral contraception
- Cortisol
  - postoperative, and Cushing's disease 25 (Commentary) 19
- CRH test
  - in preterm infants 207
- Critical illness
  - combined releasing factor therapy in men 655
- Cushing's disease/syndrome
  - bone mass and turnover in 153
  - galanin in pituitary adenomas 397
  - petrosal sinus sampling and PTHrP (Letter) 419
  - postoperative cortisol, and outcome 25 (Commentary) 19
  - results of transsphenoidal surgery 541
- Cystic fibrosis
  - insulin, IGF axis and growth 383
- Cystic parathyroid tumours
  - characterization 261
- Deiodinase enzymes
  - in pituitary tumours 735
- DHEA
  - replacement, in Addison's disease (Commentary) 573, 581
- Diabetes
  - gestational, and soluble E-selectin levels 335
- Doppler sonography, colour flow 33
- Dyslipidaemia
  - after parathyroidectomy 253
- Elderly patients
  - GHD with hypothalamic-pituitary disease 175
  - hypogonadal men, oestrogen and stress 745
- Electrolytes
  - in pseudohypoadosteronism (Commentary) 571, 575
- Electrophysiology
  - atrial fibrillation and hyperthyroidism 39
- Endometrial cancer
  - clinical use of GnRH analogues (Review) 677
- Endometriosis
  - clinical use of GnRH analogues (Review) 677
- Endometrium
  - somatostatin receptor 2 expression 609
- Endothelial function
  - in adult GHD 493
  - effect of isoflavones in menopausal women 693
  - effects of HRT in Turner syndrome 615
- Erythrocytes
  - Na<sup>+</sup>, K<sup>+</sup>-ATPase and nasal potential in pseudohypoadosteronism (Commentary) 571, 575
- E-selectin
  - soluble, and gestational diabetes 335
- Exercise
  - effects on GHRH plus GHRP-6 test 89
- Fatigue
  - in Addison's disease (Commentary) 573, 581
  - GH excess and physical function 351
- Fertility
  - after radioiodine therapy in men 755
  - IVF and GnRH analogues (Review) 677
- Fine-needle aspiration biopsy (FNAB)
  - diagnosis of thyroid tumours (Review) 281
- Food intake
  - effects on GHRH plus GHRP-6 test 89
- Fracture risk
  - in pituitary disease 159
  - postmenopausal osteoporosis (Review) 565
- FSH
  - activity, and combined oral contraceptives 509
  - influence of inhibin B in boys 215
  - influence of inhibins A and B in girls 223
- Galanin
  - in pituitary adenomas 397
- Gender
  - complete virilization in CAH 231
  - dose response to octreotide in acromegaly 73
- Genetics
  - 21-hydroxylase deficiency and adrenal incidentalomas 811
  - analysis of familial isolated hyperparathyroidism 457
  - analysis of pituitary metastases (Case report) 817
  - aneuploidy in thyroid cancer cell lines and tissues 341

- Argentine 21-hydroxylase deficiency genotypes 239
- autoimmune thyroid disease susceptibility loci 45
- Ca<sup>2+</sup> channel mutations and polymorphisms in
  - hypokalaemic periodic paralysis 367
- characterization of cystic parathyroid tumours 261
- CTLA-4 gene and childhood Graves' disease 649
- DQ-LTR13 and susceptibility to Addison's disease 773
- familial medullary thyroid carcinoma (Letter) 823
- FMTc phenocopies and papillary thyroid cancer 53
- LH receptor gene mutations in Leydig cell hypoplasia 103
- male undermasculinization (Review) 1
- MEN1, large germline deletions of *MEN1* gene 465
- menin expression in pituitary adenomas 589
- primary hyperparathyroidism and loss of heterozygosity 113
- renal and systemic pseudohypoadosteronism (Commentary) 571, 575
- SHOX* expression and stature (Case report) 671
- sodium iodide symporter (NIS) and thyroid disease (Commentary) 427
- somatostatin receptor 2 expression in endometrium 609
- GH
  - assessment in adults after glucagon 329
  - characteristics of secretion in GHD adults 79
  - effects of food and exercise on GHRH + GHRP-6 test 89
  - effects of interaction of ghrelin and somatostatin 643
  - effects of somatostatin analogues in untreated acromegaly 65
  - excess, and physical function 351
  - gender and dose response to octreotide in acromegaly 73
  - metabolic effects in GH-deficient children 799
  - postoperative TRH test and acromegaly 313
  - replacement, and capillary permeability and density 519
  - replacement, and circadian blood pressure rhythms 431
  - replacement, effects on sleep 805
  - replacement, endothelial function and arterial stiffness 493
  - replacement, and lipid profile 525
  - serum bioassay 475
  - in somatostatin withdrawal plus GHRH in obesity 487
  - therapy, and LDL oxidation in GHD 449
  - therapy, spinal irradiation and BMD in GHD 169
- GHD
  - capillary permeability and density in 519
  - characteristics of GH secretion in adults 79
  - childhood-onset, confirmation of adult diagnosis 503
  - in elderly, with hypothalamic-pituitary disease 175
  - fracture risk in 159
  - GH replacement and circadian blood pressure rhythms 431
  - GH replacement and endothelial function 493
  - isolated, effects of ghrelin 765
  - LDL oxidation in 449
  - lipid profile in 525
  - metabolic effects of GH and growth promotion in children 799
  - spinal irradiation and GH therapy 169
  - vasoregulation in 759
- GH receptor antagonist
  - pegvisomant and acromegaly 303 (Commentary) 423
- Ghrelin
  - effects in isolated GHD 765
  - interaction with somatostatin 643
  - in obesity and weight loss 203
- GHRH
  - GH response in obesity 487
- GHRH + GHRP-6 test
  - effects of food and exercise 89
- GHRP-2
  - combined therapy in critical illness 655
- Gitelman's syndrome
  - hypocalcaemia in (Case report) 413
- Glucagon
  - GH test in adults 329
